DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a multiplayer printed circuit board (PCB) comprising first and second signal transmission lines, first and second ground layers, first and second insulators, a signal via, a ground via, and some other claimed elements. However, they do not disclose or render obvious in combination of the multiplayer PCB having the signal via being separated from the first and second ground layers and the ground via. Also, the first ground layer has an end protruding with respect to a second layer, the end extending nearer to the signal via than an end of the second ground layer opposite to the end. There is no suggestion to modify the references to include these limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
